

# SOUTHERN PACIFIC F4/F5 2-10-2

1:32 SCALE • 45 mm GAUGE

AL97-041 SP F4 2-10-2 #3680

The Southern Pacific 2-10-2's were general purpose locomotives and were used system wide. The stand out news story about this class of SP loco was that in 1922 twenty 2-10-2's were shipped from Baldwin in one train across the country and that train was called the Prosperity Special.

The F4 and F5 class had 63 inch drivers, 29"x32" cylinders, weighted 397,900 lbs. and had a boiler pressure of 200 lbs. F-4 #3680 is modeled as it appeared in 1953 with a 16,000 gal. semi Vanderbilt tender. F-5 #3765 is modeled as it looked in 1955 with a clam shell stack and semi Vander built tender. The #3765 was one of the last 2-10-2's to be shopped.

Both these engines represent the Zenith of the 2-10-2 class on the Southern Pacific. The 2-10-2's were very popular on the SP and could go places that the bigger Cab Forwards could not. Many of the 2-10-2's were based on the SP's Shasta Division and were used as the main power on the original main line to Oregon from California over the Siskiyou mountains.

## SPECIFICATIONS

Scale	1:32
Gauge	45 mm
Mini. radius	19 ft. (3 m)
Dimensions	37.40 x 4.37 x 638 in.
Construction	Brass & stainless steel
Electric Model	
Power	Pittman 0~24V DC motor
Features	Full cab interior design
	Constant lighting
	Sound ready
Live Steam Model	
Power	Live steam, alcohol/butane fired
Boiler	Copper
Valve	D-valve
Valve Gear	Walschaerts valve gear
Working pressure	60 psi
Features	Safety valve
	Pressure gauge
	Water level glass
	Lubricator
	Check valve
	Throttle valve
	Axle driven pump w/ bypass valve
	Hand operated water pump in tender

ITEMS SUBJECT TO CHANGE IN PRICE, COLOR, SPECIFICATION, DESIGN AND AVAILABILITY WITHOUT NOTICE.
