

# CIWL SLEEPER CAR "TRAIN BLEU"

LIMITED PRODUCTION • 1:32 SCALE • 45 mm GAUGE

Accucraft Trains is proud to announce new productions of high quality brass coaches under the J&M Models brand. We are introducing first a custom made batch of CIWL LX Sleeper cars with four different car numbers as used in the famous 'Blue Train'. Coming next year we will introduce accompanying types of Train Bleu cars. These beautiful coaches feature improved materials, less weight, and more detail than their previous iterations.

We are taking reservations by waitlist. Production of these custom made coaches will be ongoing and orders will be fulfilled according to the waitlist. The delivery time is one month from reservation, but may increase based on demand.
